**Object: Acceptation of IASCYS as a CS-DC founding member**

Dear Stuart Umpleby, IASCYS President  
and  
dear Pierre Bricage, IASCYS Secretary General

The UNESCO UniTwin CS-DC is accepting with a great pleasure the IASCYS wish to become a founding member of the CS-DC UNESCO UniTwin.

The CS-DC is especially happy with the contribution to its shared resources along the international conferences and other initiatives organized by your international Academy IASCYS.

Under the direction of your representative, the only commitment of your Institution over the whole duration of the UniTwin is simply to continue to develop your own Programme in cybernetics and the study of complex systems within the context of the resources shared by the CS-DC. No financial participation is required, especially for the CS-DC organizational tools of e-conferences.
